

Surface 45 degree profile

Product Name VLP-45

8Point3LED Ltd

SURFACE EXTRA SLIM Profile

Surface mount high quality anodised aluminium LED profile only 19mm high for led strips less than 12mm wide. Efficient heat sink enabling thermal management of the Led tape installed.

The profile comes with choice of three different UV stabilised diffusers: frosted, 50% frosted and transparent. The aluminium high density body provides excellent heat dissipation ensuring optimal LED performance and operating life due to lower operating temperatures. Designed to be surface mounted for shelving and cupboard lighting

Profile comes with dedicated end caps.

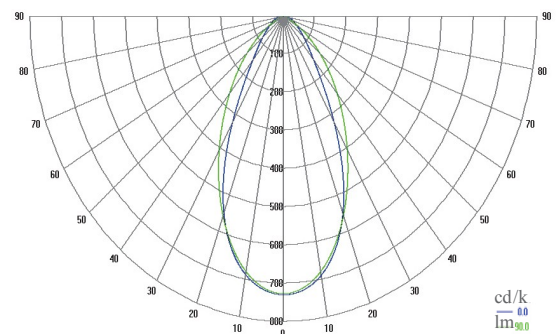

ADVANTAGES:

- High standard of anodised aluminium surface
- High Quality UV resistant polycarbonate snap in diffuser
- Three different light diffusers to choice from, frosted 50% frosted and transparent.
